Mr. William Trouts returned from Chicago yesterday morning and immediately journeyed to Winchester to join his brother Sir Knights.

Mrs. Thomas Malone of West Fourth street and Mr. and Mrs. Paul Tierney of East Third street are spending a few days with Mrs. Patrick Tierney of Mt. Olivet.

Lexington Herald—Miss Margaret Franklin, accompanied by her niece, little Margaret Daly, of Mayslick, is visiting the family of Mrs. Fitzgerald on North Limestone street.

Right Rev. C. P. Maes of Covington will celebrate the twenty-fifth anniversary of his consecration as Bishop June 29th.

The eighty-second annual Council of the Episcopal Diocese of Kentucky will commence at Louisville May 24th, continuing four days.

G. Leonard Carpenter, who was recently arrested in Fleming county charged with complicity in an express safe robbery at Parkersburg, W. Va., has had his case continued by the Commonwealth. Public sentiment seems to favor Mr. Carpenter.

HUSBAND AND WIFE AGREE ON TESTIMONY

Persons afflicted with catarrh and stomach trouble will no doubt be interested in a statement recently made by Mrs. Margaret E. Jewel, living at 612 North Twenty-third street, Mattoon, Ill., who is but one of many thousands of persons who have testified to the curative qualities of the Cooper remedies.

Mrs. Jewel says: "I am 55 years of age and have suffered from catarrh nearly all my life. My stomach was in a deplorable condition. I suffered terribly from indigestion and nervous trouble. I was all run-down, and though I tried many remedies nothing afforded more than temporary relief.

"Finally I was persuaded to give Cooper's New Discovery a trial, and procured a bottle from my druggist. Its effect was immediate and I soon felt like a different woman. After having taken six bottles I am today enjoying very good health.

"My husband who has suffered a great deal with rheumatism, has also taken Cooper's New Discovery, and it has afforded him great relief. We both agree that there is nothing to compare with this splendid medicine."

No person with a strong healthy stomach need be sick; on the other hand, no one can expect to enjoy good health with a stomach that is weak and degenerated. The stomach is the most important organ in the human system, and is responsible for the majority of the ills of mankind, due almost wholly to neglect and abuse.

Cooper's New Discovery makes weak stomachs strong. I have a heavy demand for this preparation.—Thos. J. Chenoweth.

Rev. Frank Telle will hold services at Stone-lick Church Sunday, morning and evening.

John Clinger of Dexter, and his brother, Joseph Clinger, met yesterday for the first time in thirty years. Joseph is engineer on the steamboat towing Cooley & Thom's Floating Palace which gave an exhibition at the wharf last night. The meeting was a happy one for the long separated brothers. It was Joseph's first visit in this vicinity since his going away when a lad.

BASE BALL.

The Maysville "Hard Hitters" will cross bats Sunday with Lewisburg's Crack Nine. The line-up of the city boys follows—John Collins rf; James Backley, 2b; John Welsh, p; W. M. Maher 3b; John Heffernan, cf; Thomas Heffernan, ss; W. D. Oldham, 1b; James Heffernan, lf; Chas. Maloy, c; and John Roper, umpire.

MISSIONARY UNION

The Missionary Union of Ebenezer Presbytery met in the Central Presbyterian Church at 9:30 this morning.

There was an entertainment last night conceived by one of Maysville's most gifted daughters. It was a beautiful life-like illustration of the condition of China.

Refreshments were served after its completion, giving all an opportunity to become acquainted.

An Indian's Hatred.

Charlot, hereditary chief of the Bitter Root Indians, erroneously called Flatheads, is dead. He was every inch an Indian, reserved, taciturn, haughty, self-contained, and at times resentful. But to those who broke through the crust of his reserve he was well known as a loyal friend, as steadfast in that role as when he played the foe. Charlot suffered much; he was deceived and cheated; he was maligned and mistreated; his pride was hurt; but he suffered most over the wrongs that were inflicted upon his people. Some of his personal grievances he forgave, but he was resentful to the very end against those who had, according to his belief, robbed his people. He was proud and he despised defeat. He had some warm friends among the whites; these he trusted to the limit. But to his last breath he cherished a fierce hatred of the men who lied to him and who drove him from the ancestral home in the Bitter Root. And where is the white man who would not have done the same.—From the Missoulian.

REMARKABLE CAMERA LENS

Recent invention of a Johns Hopkins Professor Photographs Everything in Sight.

Baltimore, Md.—Prof. Robert Williams Wood of the chair of experimental physics of Johns Hopkins university, has received word from the officials of the International Photographic exposition at Dresden, Germany, that there has been awarded to him a prize for his striking exhibit of photographs made with his fish-eye camera, and which show how the world appears to the fish.

Prof. Wood's camera does not have the usual flat lens, but a projective bull's-eye that photographs everything

Picture Taken with Fish-Eye Lens.

In sight, from the feet to the sky overhead and all around the horizon, covering an angle of 180 degrees. It will photograph objects above water or while submerged in lake or pond. The professor has been at work on his camera for three years, but it was unknown to the public until he showed a series of photographs at the International show at Dresden, where they attracted marked attention.

The ordinary camera reproduces only what is immediately in front of a small circle represented by its lens. If Prof. Wood's device be placed on a floor the projecting fish-eye will photograph all four sides of the room and the ceiling at the same flash. If held close to a man, say a half foot from his waist, it will photograph all on either side of him and all above his head and below his feet. Should it be suspended from a balloon, it would take a panorama of a city out to the horizon.

The photographs that won a prize at the international exhibit are unique. One shows a string of Johns Hopkins students that Prof. Wood lined up on a curbstone. The result has a concave effect, but the camera caught every man in the line. Another shows several students in a circle. The camera caught every one of them and included the sky and the cobblestones in the street. They appear, it is explained, just as they would to a fish looking up from a pond at a group of men around a circular railing.

THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured."—Mrs. ALVENA SWEETLING, 1468 Clybourne Ave., Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

WE TOLD YOU SO!
